**Subject:** Passaic River - Hydrodynamic Model Transfer

Hi Alice,

Please see the below Fairfax address for shipping the hard drive at your team's convenience. As noted during our meeting on Wednesday, the team would appreciate any relevant GIS layers or other electronic files discussed if not publicly available. We can also follow up on other files at a later date as well if more appropriate, particularly as we may utilize the Sharepoint site or similar platform, still under discussion on our side.

Just a quick note as well regarding the CAG meeting tonight and our appreciation of EPA's representation and obvious positive engagement with the community (maybe bat aside!). We were very impressed with the evident warmth and trust the members expressed regarding your participation. I am certain that this will only be helpful to the process. Maybe it also helps not to be center topic for the meeting, but I know from personal experience that such respect in these forums only comes well-earned. Thanks.

Juan

Please ship to:
